

**NEW**

Electric Garage Shutter[ELEGANO]

# ELEGANO

ST wide

## DESIGN Excellent design

Flat slats are simple and high class

Color variations / Metallic type

Cool silver

Metallic stainless color

Gun metallic

Color variations / Wood-grain type

Vintage walnut

Tote cherry

LED illumination, which is available as an optional extra, turns on when the garage opens and closes, providing not only safe entry and exit of vehicles at night but also creates a dramatic scene.

## SPEEDY Fast operating speed

The operating speed is about 6 m/minute (the speed can be 4.5 m/minute depending on size).

The speed is twice as fast as our wide type lightweight electric shutters.

## SAFETY Outstanding safety

Two obstacle detection devices, a multi-axial area sensor and a load detection sensor, and an anti-abrupt-drop device are included as standard equipment.

### Specifications
