

Luxurious wood-grain high-panel restroom stalls with color coordinated edges,
totally harmonized with the surrounding

NEW

Celebooth TW40-P

Wood edge enamel model with paint finish

Wide variety of colors

(High-pressure melamine resin decorative plate)

Total of 63 colors

Stalls of tall panels from floor to ceiling

The panel surface is mounted flush with the edge for a smooth appearance.

Panel surfaces and edges are design-coordinated.

Edge sections are coated with enamel paint similar in color to the face panel surface.

The gap between the mounting stud and panel is reduced, decreasing the risk of getting fingers caught.

High-grade metals

Design range(mm)

	Standard size		Design range
Panel H	—		1800 ~ 2925
Door H	2000		1800 ~ 2000
Panel W	—		100 ~ 1200
Door W	550	600	—

Performance

Durability	100,000 open/close cycles
Hardness of coating film	Pencil hardness H
Adhesion of coating film	Classification 1 (peeling is within 5% of coating)
Safety	Pinchless function is included as standard

Panel / door specifications

Panel / door	Thickness	40 mm
	Face panel	High-pressure melamine resin decorative plate
	Frame material	LVL (Laminated Veneer Lumber)
	Core material	Paper core
	Edge	MDF polyurethane resin enamel paint*
